Contoso supports remote work when business needs, role requirements, and security controls permit it.

Standard allowance: Eligible employees may work remotely up to three days per week with manager approval.

Eligibility: Employees must have completed their first 30 calendar days of employment and must be in a role suitable for remote work.

Office attendance: Teams may designate required in-person days for collaboration, customer work, training, or operational needs.

Equipment: Company-managed devices must be used for company work performed remotely.

Security: Employees must use approved authentication, VPN or other required secure access controls, and private workspaces when handling confidential information.

Recurring schedules: A recurring flexible arrangement requires the procedure in CNT-WRK-012.

Five-day remote schedules require executive approval and are not automatically available under this policy.
